

PMJN Manuscript Submission Author Agreement Form

The **Post-Graduate Medical Journal of the National Academy of Medical Sciences (PMJN)** is an internationally recognized, peer-reviewed biomedical journal published by the National Academy of Medical Sciences (NAMS). Established in 1999, it is one of the oldest medical journals in Nepal. The **PMJN Manuscript Submission Author Agreement Form** is designed to outline the authors' rights and responsibilities, ensuring compliance with ethical standards and is a legally binding agreement between the authors and the journal. Please read it carefully and complete the relevant sections accurately. All authors must sign the form (hand-signed, image, or digital signatures accepted) and submit it with the manuscript at pmjn.org.np.

Author Consent and Agreement

By signing below, we confirm the following:

1. The manuscript is original, properly cited, and free from plagiarism. It has not been submitted or published elsewhere without acknowledgement or permission.
2. The order of authorship is final and accepted by all co-authors. All contributors are either listed as authors or acknowledged (with written permission). PMJN is not liable for disputes over authorship.
3. All authors confirm their agreement with the manuscript's submission to PMJN, its content, and compliance with ethical, copyright, and conflict-of-interest requirements.
4. Data collection, analysis, and reporting follow ethical guidelines. Findings are truthful, with no fabrication, falsification, or selective reporting. Data will not be published separately and can be provided for examination if requested.
5. Necessary ethical approvals have been obtained. There are no ethical issues or conflicts of interest.
6. All copyright ownership is transferred to PMJN upon publication, including rights to reproduce, translate, and republish the article in any format.
7. The corresponding author is authorized to make necessary changes, manage correspondence, and act as guarantor for the manuscript.
8. Patients/participants were informed about the study's purpose, confidentiality, and data use. For clinical case reports or case series, the [PMJN Case Report Consent Form](#) was signed and documented before gathering any medical history, personal information, or clinical data for the report.

We agree to these terms and affirm our authority to enter into this agreement on behalf of all co-authors.
